Subject: 3,004 marijuana samples

Just as an interesting note, there are approximately 3,004 marijuana samples waiting for analysis that were received before 1/1/09. This is our marijuana backlog from 9/16/2008 thru 12/30/08. I'm hopeful that many of these, although not all, will qualify for "Not Tested" status pending the outcome of your letter.

Just thought you would want to know the potential scope of this endeavor.
